Mia M.I.A.

Mia M.I.A. centers around an ordinary couple, who happen to be married women of color, as they navigate lives on earth. Yet as our story unfolds, they are drawn into an enchanted realm of silhouettes, puppets, and dance, much like Alice through the looking glass. From the creators of "The Enchanted Revolution," a magical lo-fi space pop opera. Artists from Ms. Gaspard's collective, Midnight Radio Show, are collaborating in the creation of Mia MIA.

This residency has been made possible through funding and support by The Jane Henson Foundation, Heather Henson, The Jim Henson Foundation and La MaMa. Photographs by Richard Termine
